

SWAtHC- PROJECT SUMMARY SHEET and Prioritization 2018

Sponsor RHC	Year of Execu- tion	Country/ Countries involved	Priority / Status	Project Name	Project Objective	Benefits	Assistance required	Total Cost	Allocation and Priority (to be filled by CBSC)	Contact Person
DHN Brazil	2018	Argentina, Brazil, Uruguay, Paraguay, Bolivia, as well as SEPRHC, and MACHC.	Priority 1	MSI Workshop	To increase the capacity of Latin American Hydrographic Services (HS) to assess and promulgate navigationally significant information to the wider maritime community.	Participants will gain a better understanding of MSI structure and basic procedures. This training will allow the HS to develop products related to safety of navigation in the maritime and waterways areas.	The contribution from the CBSC fund will cover travel and subsistence for 8 foreign students and 2 trainers.	€ 22.200		Capt. Carvalho (DHN)
SHN Argentina	2018	Argentina, Brazil, Uruguay, as well as SEPRHC, and MACHC.	Priority 2	Port and Shallow Water Survey Course	To increase the knowledge and skills to produce hydrographic information in ports and shallow water areas, improving SWAtHC members' capacity to properly acquire data using MBES and SSS processing.	This training will benefit ENC production by providing high quality products and this will result in a greater safety of navigation. Besides it is expected to comply with IHO S-44 standards on bathymetric data.	The contribution from the CBSC fund will cover travel and subsistence for 6 foreign students and 2 trainers.	€ 16.500		Cmdr. Gustavo Jorge Almazan

Sponsor RHC	Year of Execution	Country/ Countries involved	Priority / Status	Project Name	Project Objective	Benefits	Assistance required	Total Cost	Allocation and Priority (to be filled by CBSC)	Contact Person
SOHMA Uruguay	2018	Argentina, Brazil, Uruguay, as well as SEPRHC, and MACHC.	Priority 3	MSDI and Data Management Workshop	To give participants an understanding of spatial data infrastructures (SDI) for the provision of basic geospatial data.	This Workshop will allow the Hydrographic Services to improve the development of database modelling and integration. In addition, the more qualified hydrographers would benefit the final quality of Nautical Charts and ENC production.	The contribution from the CBSC fund will cover travel and subsistence for 8 foreign students and 2 trainers.	€ 13.250		Lt. Cmdr. Niki SILVERA (SOHMA)
