DQWG Letter : 03/2018

Date: 11 June 2018

Subject: S-67 Mariners guide to accuracy of depth information in an ENC v0.6

Dear Working Group Member,

1. At HSSC-9 held in Ottawa, Canada 6 - 10 of November 2017, the HSSC approved the proposed Terms of Reference of the DQWG. The DQWG should provide data quality educational material for the use of mariners.
2. At DQWG meeting-13 held at the IHO Secretariat January 15-19, the S-67 draft version 0.5 "Mariner's guide to the accuracy of Electronic Navigational Charts" was discussed. The title of the document was suggested to be changed into: "Mariner's guide to the accuracy of depth information in an Electronic Navigational Chart." This suggestion has been approved by HSSC-10 (May 2018).
3. At DQWG meeting-13 it was decided that rework on the document was needed. This has been done by the Vice Chair, delivering draft version 0.6 to the DQWG.
4. I would kindly ask you to review this paper. Please provide your reply no later than **27 July 2018**.
5. Please use the DQWG comment form provided for your response.
6. After this review by correspondence, the document will be sent for review by other HSSC-WGs as deemed necessary. At DQWG-14 (February 2019) we can complete this document for approval to HSSC-11 (May 2019).
