

Hydrographic Surveys Project Team

HSPT2 – End of Meeting Christophe Vrignaud (Chair)

Nickolas de Andrade Roscher (Vice Chair) – David Wyatt (Secretary)

HSPT2 debriefing

- ✓ Recap about HSPT1 and Questionnaire quick debrief
- ✓ HSPT Spreadsheet debrief (including work done by PRT, CAN, BR on the matrix approach)
- ✓ Work on the 10 limitations done, with dedicated groups, during breakout sessions (Episode 1)
- ✓ Chapters for the draft of Edition 6 defined
- ✓ Work on Chapters has already been started during breakout sessions (Episode 2)
- ✓ Deadlines defined for the inter-sessional works to come until HSPT3
- ✓ HSPT3 scheduled and located
- ✓ HSWG consideration assessed

-
- The S-44 is going to be fully reviewed (relevant and consistent work in progress)
 - The matrix approach offers a new approach: a way "to think out of the boxes", with a lot benefits
 - Commitment of the HSPT2 members has to be highlighted (Members State and Expert Contributors).
 - HSPT2 meeting has been successful (fully efficient, with very relevant inputs - we have surprised ourselves with the progress)
 - A realistic scheduled has been defined with the aim to release a final version for HSSC12 in 2020

-
- On behalf all the HSPT2 participants, I would like to thanks the Brazilian Hydrographic Office for their remarkable organization.
 - No doubt that the success of this HSPT2 meeting is related to this the commitment of DHN.
 - Thanks to DHN, and thanks to all HSPT2 participants.

2nd meeting of HSSC Project Team on Standards for Hydrographic Surveys
(HSPT2) in Niterói, Brazil, 3rd to 6th July 2018
