Remarks:	The position of the summit is located in (20°28.15′N, 129°16.92′E). It should be noted that, although simple mathematics calculation yields the total relief more than 1000 m, the feature is most reasonably defined as a
	Hill.

NOTE: This form should be forwarded, when completed:

- a) If the undersea feature is located <u>inside the external limit</u> of the territorial sea:
 - to your "National Authority for Approval of Undersea Feature Names" (see Publication B-6) or, if this does not exist or is not known, either to the IHO or to the IOC (see addresses below);
- b) If at least 50 % of the undersea feature is located <u>outside the external limits</u> of the territorial sea:
 - to the IHO or to the IOC, at the following addresses :
