# News ideas to be studied in 2025 for 2026, 2027 and later (1/2)

- Consider some ideas of “CBSC22-05.1F\_EAtHC-Report\_PRESENTATION”
- Take first into account the conclusions of the seminar «*20 Years of Capacity Building Actions in EAtHC Assessment and Prospect*». Report not distributed at the date of writing of this document , nevertheless some expressions:
  - “not just oceans: lagoons, rivers and lakes”;
  - “gradually shift from North/South to South/South cooperation”;
  - “develop accredited African schools in which the language, the status of the students, their financial capacities are not obstacles”
- *Visits (TV, HLV)* could now focus more on follow-up (Implementation) on past actions and recommendations.
- Take into account the fact that important progress have been obtained in some countries who now have important “National” capacities (ie: survey ships) : Morocco, Ghana, Nigeria, Angola...

Morocco: *Dar Al Beida*

Ghana: *Yaa Asantewaa*

Nigeria: *Lana*

Angola: *Kilamba*

# News ideas to be studied in 2025 for 2026, 2027 and later (2/2)

- If countries have not already survey ships, they now often have basic equipment (GPS, SBES, Hypack) allowing them to survey in harbours (small embarkation) and access. What could be missing is **training with their own equipment**. IHO actions should complement the country's own capabilities and not substitute for them. Still need to know them
- Revisit **African maritime academies** capable of developing courses in marine sciences and techniques integrating hydrography and physical oceanography (Morocco, Ivory-Coast/ARSTM, Ghana/RMU, Nigeria ...)

Ivory Coast

Ghana

The Gambia

- Launch large-scale regional **development projects**. This presupposes project organizations (management, financing, etc.). Action to be link to the proposition discussed May IHO Assembly in Monaco: *PRO- 3.5 Establishment of a task force to explore the potential merits, structures, and options for alternate fund generation to support capacity building and other IHO initiatives*
- Consider the importance of language

GRUPE DE LA BANQUE AFRICAINE DE DEVELOPPEMENT
