DQWG Letter : 02/2018

Date: 23 March 2018

Subject: Methodology for the display of quality information

Dear Working Group Member,

1. At HSSC-9 held in Ottawa, Canada 6 - 10 of November 2017, the HSSC assigned task 35 to the Data Quality Working Group (DQWG). The DQWG should further develop the conditional visualization methodology of quality of bathymetric data in liaison with NCWG, NIPWG, ENCWG and S-101PT.
2. At DQWG meeting-13 held at the IHO Secretariat January 15-19, methodology for the display of quality information was discussed under agenda item 8a. The outcome of that discussion was summarized in tasks DQWG13/15, 13/16 and 13/17.
3. Paper DQWG14-08A is result of task DQWG13/15: Methodology is to be further developed by correspondence, assigned to the Chair.
4. I would kindly ask you to review this paper and act as instructed on the Action Required of the Data Quality Working Group. Please provide your reply no later than **04th May 2018**.
6. Please use the DQWG comment form provided for your response.
7. Based on the outcome of this discussion by correspondce, we will have to decide if actions DQWG 13/16 (invite users) and 13/17 (invite product specifications developers) are to proceed. Please indicate if you would agree/disagree to do so at meeting 14.
