Dear colleagues,

NIPWG3 noted with interest the KHOA initiative on the development of a special chart overlay to provide navigational information, see Reference B. At this time the service was provided in Korean language. The meeting invited KHOA to inform the Working Group when an English version of the service would be available.

This has been done and I'm very pleased to inform you that the English version is now accessible on

<http://www.khoa.go.kr/oceangrid/khoa/intro.do>

Please note that this letter is of an informal character, thus no response is necessary.

A handwritten signature in black ink, which appears to read 'Jens Schröder-Fürstenberg'.

Jens Schröder-Fürstenberg,
Chair, NIPWG
