# PROPOSED IHO ANNUAL WORK PROGRAMME 2024

ESSENTIALS OF COUNCIL DOC C7-05.2A

International  
Hydrographic  
Organization

**The proposed Work Programme for 2024 is based on the first year of the three-year Work Programme (2024-2026) approved by A3 with highest priority placed on Goal 1 of the Strategic Plan:**

*“Evolving the hydrographic support for safety and efficiency of maritime navigation, undergoing profound transformation”*

On-going transformation in navigation, such as e-navigation, autonomous shipping, reduction of emissions, lead to profound evolution of hydrographic services, in a context of high demands for digital data.

- **The proposal covers all three Work Programme elements and cumulates all tasks as an instrument of control for the operations of the Secretariat:**
  - **Corporate Affairs (WP1)**
  - **Hydrographic Services and Standards (WP2)**
  - **Interregional Coordination and Support (WP3)**
- **and takes all activities which have taken place under the respective work programme items since A3 into account.**
