

# IHO ANNUAL WORK PROGRAMME

## AGENDA ITEM 5.2

### PROPOSED IHO WORK PROGRAMME FOR 2025

The proposed Work Programme for 2025 is based on the second year of the three-year Work Programme (2024-2026) approved by A3 with highest priority placed on Goal 1 of the Strategic Plan:

*“Evolving the hydrographic support for safety and efficiency of maritime navigation, undergoing profound transformation”*

On-going transformation in navigation, such as e-navigation, autonomous shipping, reduction of emissions, lead to profound evolution of hydrographic services, in a context of high demands for digital data.

- The proposal covers all three Work Programme elements and cumulates all tasks as an instrument of control for the operations of the Secretariat:
  - Corporate Affairs (WP1)
  - Hydrographic Services and Standards (WP2)
  - Interregional Coordination and Support (WP3)
- and takes all activities which have taken place under the respective work programme items since A3 into account.
