

21st MEETING OF THE IHO CAPACITY BUILDING SUB-COMMITTEE

Tokyo, Japan, 7-9 June 2023

Paper for the Consideration by CBSC21**MBSHC Three-year Capacity Building Work Plan**

Submitted by	:	MBSHC CB Coordinator
Executive Summary	:	This document provides a summary report of the capacity building activities at the MBSHC, planned between 2023-2025.
Related Documents	:	None.
Related Projects	:	None.

1. Introduction / Background

A three-year plan for the Capacity Building activities at the MBSHC region has been composed and 2023 is ready to be implemented. The submissions for 2024 are submitted for the consideration of CBSC. The Capacity Building Plan for 2025 is currently under review.

2. Three-year Capacity Building Work Plan

2023	2024	2025
Workshop on MSI Development & Implementation	Workshop on ENC Quality Assessment	Technical Visit to Lebanon
-	Workshop on Disaster Response	Technical Visit to Albania

3. Conclusions

MBSHC Capacity Building Activities have contributed to the effort of compensating for the gap between the Member States, in terms of both technology and experience. Yet, there still is a need for continued capacity building, and consequently for capacity building funds.

4. Action Required of CBSC

The CBSC is invited to take note of this report.
