

Report on the Sub-Committee for Regional Undersea Mapping (SCRUM)

Submitted by Chair SCRUM [USA/LDEO]

SUMMARY

Executive Summary: This report summarizes SCRUM activities since the previous GEBCO Meetings in January 2021

Action to be taken: See paragraph 9

Related documents: None

1. SCRUM membership was reviewed and refreshed based on the addition of two new members Jaya Roperez (Philippines, USA, New Zealand), David Armstrong (USA).
2. Ongoing monitoring and support of GEBCO and/or Seabed 2030 presentations at regional IHO/IOC meetings. To date, 5 RHC meetings have been attended including: (NSHC, NHC, SAIHC, UHCHC, SWPHC). Potential attendees have been identified for remaining meetings.
3. The SCRUM YouTube channel was updated with videos of webinars coordinated by the Seabed 2030 Regional Center for the Atlantic and Indian Oceans with IOCAFRICA.
4. Provided feedback to SCOPE on several new GEBCO slide template options. The final selection and release of revised template is ongoing within SCOPE.
5. Ongoing work with members of the IHO CSBWG to identify Seabed 2030/CSB coordinators for RHCs and to coordinate participation at RHC meetings.
6. SCRUM members participated in the review of the draft GEBCO 2021 grid and provided feedback to the Seabed 2030 Team.
7. Work with TSCOM and SCOPE to plan the 2021 GEBCO SubCommittee meetings and GEBCO Symposium.
8. Convened an informal virtual intersessional committee meeting of voting members of SCRUM in May 2021 to discuss recent activities and solicit input from committee members on workplan status and actions.
9. **Action**

The GGC is requested to:

- a. **Note** the contents of this report;
- b. **Take** any other action deemed appropriate.
