Submitted by the Chief of the Editorial Board

SUMMARY

Executive Summary: This report summarizes IHO-IOC GEBCO Cookbook updates since the GGC38 Meeting in April 2022

Action to be taken:

Related documents: IHO-IOC GEBCO Cookbook (IHO #B-11)

1. The last IHO-IOC GEBCO Cookbook update was published in Oct. 2019
2. The GEBCO Cookbook Editorial Board (EB) was formed in Feb. 2022, which reports to the Technical Subcommittee on Ocean Mapping (TSCOM)
3. The EB drafted the ToR and submitted review
4. The EB reached out to existing authors to update their chapters with a goal to publish a revision by the end of 2022
 - a. Nine (out of ~40) authors are working on updates to be submitted to the EB by Oct 31
 - b. Eleven (out of ~56) chapter sections will be updated to be more “evergreen”
5. The EB is moving the ~500 pg. Word document into InDesign
 - a. We have an IHO-approved template and are transferring the chapters
 - b. We will be able to export this as a reflowable EPUB, which can be scaled based on the device
6. The EB is looking into DOI that can be assigned to B-11
7. The EB will work with IHO to host the new version and remove from NOAA site

8. Looking forward: 2023
 - a. The EB plans to put out a call for new material
 - b. Evaluate each chapter without an author
 - c. Combine/remove outdated sections based on evaluation
 - d. Look for new authors to take over chapters
