

Paper for Consideration by SCUFN

Report of the work made during the inter-sessional period

Monitoring the list of PENDING names

Submitted by:	IHO Secretariat (as SCUFN Secretary)
Executive Summary:	This document reports on the monitoring, since SCUFN-35.2, of the PENDING names from the on-line GEBCO Gazetteer database. These include all new PENDING names agreed at SCUFN-35.2.

Introduction / Background

1. Following the SCUFN35.2 meeting, held in fall 2022, considering the limited resources available within its Sub-Committee, the Secretariat of the GEBCO Sub Committee on Undersea Feature Names (SCUFN) decided to contract several tasks in order to improve the content of the IHO-IOC online GEBCO Gazetteer of Undersea Feature Names (the Gazetteer) and support SCUFN activities managed by the IHO Secretariat. The following tasks were contracted to the former SCUFN Secretary.

Tasks	Objectives	Outcome reported in
1	<i>Update the Gazetteer from all undersea feature naming decisions and actions taken at SCUFN-35, ensuring quality control and standardization of the documentation provided as part of the relevant proposals. Prepare a draft report as a submission document to SCUFN-36. Deadline: 31 August 2023.</i>	Doc. SCUFN36-07.2B
2	<i>Monitor the list of pending names. Prepare a draft report as a submission document to SCUFN-36. Deadline: 31 August 2023.</i>	Doc. SCUFN36-07.2D
3	<i>Monitor the relationships with NCEI and KHOA to maintain and/or improve the Gazetteer, as necessary and/or appropriate. Prepare a draft status report as a submission document to SCUFN-36. Deadline: 31 August 2023.</i>	Doc. SCUFN36-07.1B
4	<i>Launch, monitor and provide advice on the development by KHOA of the prototype UFN database and SCUFN Operations Web services (OWS), as well as the integration of the SCUFN OWS and the existing GEBCO Gazetteer. This will include testing the integrated system in operational mode for a couple of undersea feature names, also covering the direct online submission procedure. Prepare a draft status report as a submission document to SCUFN-36. Deadline: 30 September 2023.</i>	Doc. SCUFN36-07.3B

Tasks	Objectives	Outcome reported in
5	<i>Preload in the Gazetteer tentatively through the SCUFN OWS all undersea feature names from the proposals to be submitted to SCUFN-36, in advance of the meeting. In doing so, quality control and standardization of the documentation provided will be ensured. All preloaded names to be put in Edit mode. Prepare a draft status report as a submission document to SCUFN-36. Deadline: 30 September 2023.</i>	Doc. SCUFN36-04.0A
6	<i>As a complement to Task 4, monitor the development of the SCUFN OWS Repository and the transfer of the IHO SCUFN Digital Archive, the interface to move proposals (in restricted access mode before SCUFN meetings) to the Repository after SCUFN meetings (open access and links to GEBCO Gazetteer). Deadline: 30 September 2023.</i>	Doc. SCUFN36-07.3C

2. The objective of this submission paper is to report on Task 2.

Analysis/Discussion

3. A “pending name” is an undersea feature name that was submitted to, and considered by SCUFN, but was not accepted, either due to lack of bathymetric evidence for the feature, or because the proposed specific name is questioned, or following a conflict in naming the feature that must be solved by the authorities involved. The name is kept pending until further information or data is provided by the proposer or an agreement is reached between relevant authorities.

4. Document SCUFN35.2-07.2D (Rev1) reported that, as of September 2022, there were 205 pending names in the Gazetteer. This number had increased dramatically over the past years since most of the numerous new proposed names during the pandemic could not be dealt with on the occasion of SCUFN meetings that had to be held via videoconferences and in a reduced format. As a result, many of these names were left pending. However, SCUFN-35.2 was almost exclusively devoted to addressing them and the number of pending names could thus be reduced to 35 at the end of that meeting (including 15 pending names from Germany-AWI in the NZ area of interest, which were not considered at the meeting). [Annex A](#) provides the status of all actions and decisions from SCUFN-35.2, relating to pending names.

5. [Annex B](#) provides details of the remaining 16 pending names, including comments on the actions in progress. The 15 pending names from Germany-AWI in the NZ area of interest have been removed from the list as no progress was made during the past two years, meaning that they fell under the terms of Action SCUFN32/188 (SCUFN33/47) stating “*In general, a pending name would remain pending in the absence of any progress or notification of interest, for the following two years, and then would be eliminated from the reserve section of GEBCO Gazetteer*”. Further, four pending names from China have been resolved by correspondence in summer 2023: Xianhou SEAMOUNT, Hongqi SPUR (initially proposed as Meibin RIDGE), Qiufeng SEAMOUNT (initially proposed as Mejixi SEAMOUNT) and Xinghan SEAMOUNT (initially proposed as Nanan SEAMOUNT). The other 5 names from China, also considered by correspondence, have been left pending and are to be addressed at SCUFN-36 as item 04.11. [Annex C](#) lists those 191 names which have been removed from the previous list of pending names, including details on the actions taken. Most of them were either accepted or rejected at SCUFN-35.2.

6. A summary of the evolution of the number of pending names over the past 10 years is given in the following table:

Meeting	Total number of pending names at the end of the meeting	Number of pending names resolved at the meeting or since the previous meeting	Number of new pending names resulting from the meeting
SCUFN-26	25	9	6
SCUFN-27	47	1	23
SCUFN-28	51	0	4
SCUFN-29	38	30	17
SCUFN-30	27	20	9
SCUFN-31	75	21	69
SCUFN-32	69	31	25
SCUFN-33	85	2	18
SCUFN-34	224	18	157
SCUFN-35	35	189	0
Oct 2023	16	19	0

The graphic below shows the evolution of the number of pending names since 2013.

Recommendations

It is recommended:

- That SCUFN Members review the current list of pending names at [Annex B](#), noting the comments in the right-hand column, and conclude on the best way forward for each name, including by encouraging mutual consultation between the authorities involved, in accordance with B-6 (Art. I.E).
- That SCUFN Members consider [Annex A](#) and [Annex C](#), and comment as appropriate.

9. That as many pending names as possible be processed by correspondence, with a view to reduce the list and to avoid congesting future SCUFN meetings.

Justification and Impacts

10. Regulating SCUFN intersessional work by correspondence, through new [practical voting arrangements](#) as agreed at SCUFN-35.2, aims to put on an equal footing, decisions taken at meetings and by correspondence. Implementation of Decision SCUFN32/188 (SCUFN33/47) clearly helps reducing drastically the number of conflicting pending names, as well as limiting their proliferation.

Action required of SCUFN

11. SCUFN is invited to:
- a. note this report.
 - b. consider the recommendations in sections 7 to 9.
