Introduction / Background

1. Following the SCUFN-36 meeting, held in November 2023, considering the limited resources available within its Sub-Committee, the Secretariat of the GEBCO Sub Committee on Undersea Feature Names (SCUFN) decided to contract several tasks in order to improve the content of the IHO-IOC online GEBCO Gazetteer of Undersea Feature Names (the Gazetteer) and support SCUFN activities managed by the IHO Secretariat. The following tasks were contracted to the former SCUFN Secretary.

This will include testing the integrated system in operational mode for a couple of undersea feature names, also covering the direct online submission procedure. Prepare a draft status report as a submission document to SCUFN-37. Deadline: 30 April 2024.</i>	Doc. SCUFN37-07.3B

7	<i>Support to the outgoing Secretary during the hand-over with the incoming Secretary for a couple of training sessions. Deadline: October 2024.</i>	

2. The objective of this submission paper is to report on Task 1.

Analysis/Discussion

3. The SCUFN-36 meeting took place on 6-10 November 2023 in Wollongong, Australia. In total, 223 decisions and/or actions were agreed at SCUFN36 (236 at SCUFN35.2, as a reminder). Many of them impacted on the Gazetteer database. Acting on these require significant resource from the secretariat, thus competing with other important, often urgent, IHO matters.

4. Undersea feature name proposals which are submitted for SCUFN consideration vary considerably in terms of quality of the English language used as well as length of the texts included. There is therefore a need for quality check and standardization of the documentation provided, before validation of the names approved or pending in the Gazetteer.

5. Some names have been accepted “with modification”, for example with the requirement that the polygon delimiting the feature be extended or reduced. Acting on these may require going several times to the concerned proposer, until the additional information or data requested has been provided. This needs keeping an eye on all actions not yet completed.

6. From the above considerations, the Gazetteer has been updated by the contractor, as appropriate. As can be seen from the results provided in [Annex A](#), ALL actions have been completed.

Recommendation

7. It is recommended that SCUFN takes note of the changes made into the Gazetteer database, as reflected in [Annex A](#).

Justification and Impacts

8. All decisions and actions from SCUFN36, relevant to the Gazetteer, have coherently been implemented in the following intersessional period.

Action required of SCUFN

9. SCUFN is invited to:
- a. note this report
 - b. consider the recommendations made in section 7.
