HCA Letter No. 2/2008

PROPOSED NEW INT CHART BY NEW ZEALAND

To: Members of the IHO Hydrographic Commission on Antarctica

Dear Sir or Madam,

Land Information New Zealand (LINZ) has proposed that a new chart NZ 14904 they intend to produce to cover the approaches to Scott Island, off the Ross Sea, be incorporated in the IHO INT Chart Scheme for Region 'M'. Details and location of this chart are provided in Annexes A and B.

After careful consideration the IHB, as Coordinator for Region 'M', is of the view that the LINZ's proposal is appropriate and recommends its acceptance by HCA members. It is further suggested that this new chart be given the available number INT 9003.

You are requested to review this proposal and provide your comments by 31 March 2008.

Yours sincerely,

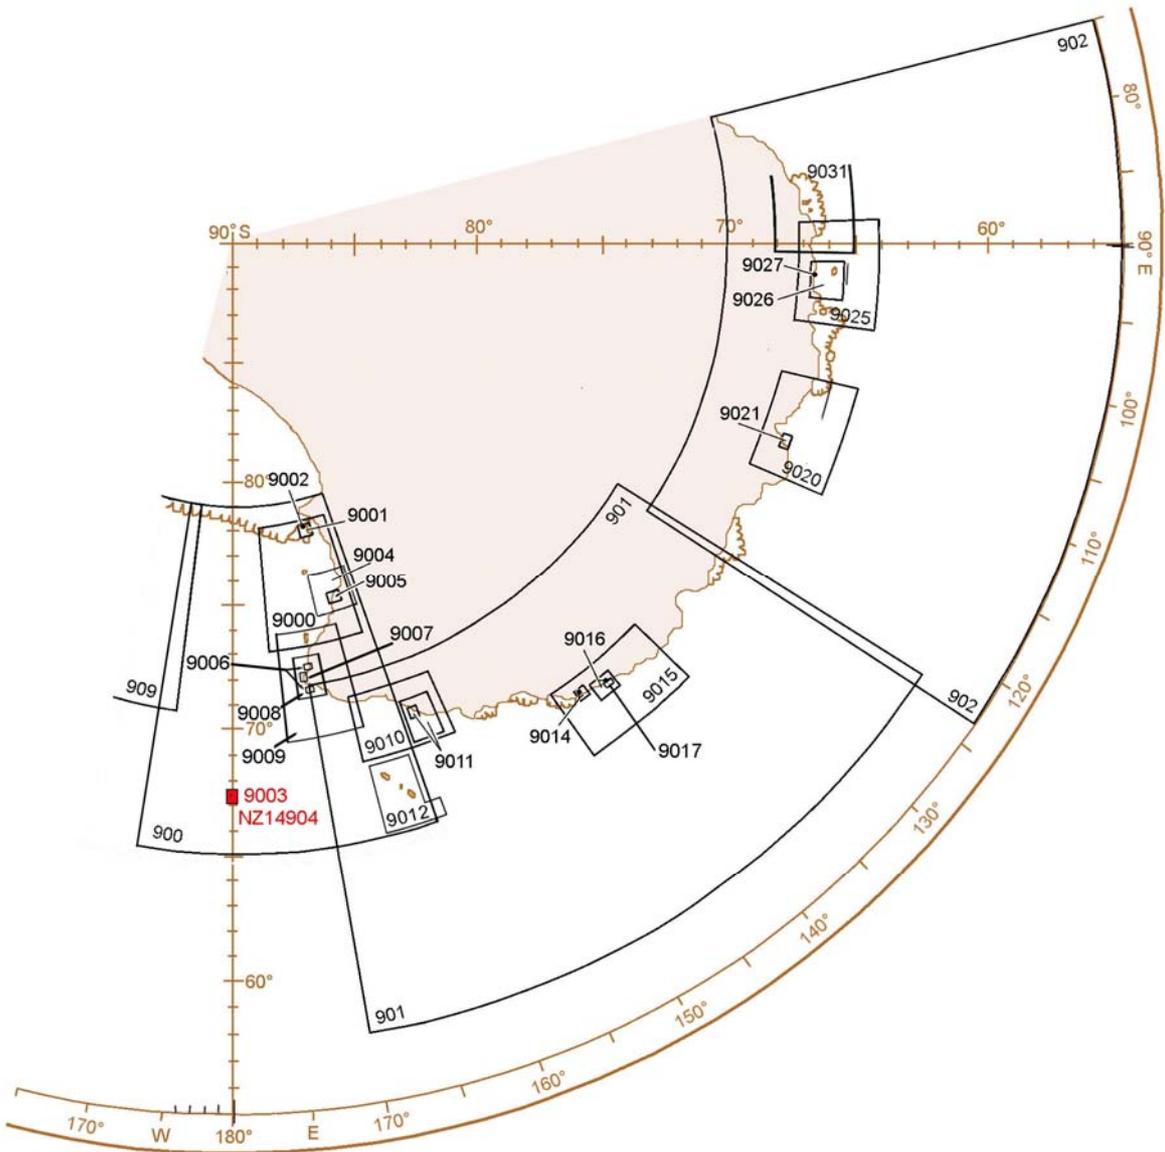

Hugo M. GORZIGLIA
Captain – Chilean Navy
IHB Director and Chairman of HCA

Enclosures: Annexes A and B

PROPOSED NEW CHART INT 9003 - DETAILS

Chart Number	NZ 14904 INT 9003	
Producer	New Zealand
