

## IHO-EU NETWORK-IENWG

### QUESTIONNAIRE ABOUT THE OFFICIAL WAY OF DIFFUSION OF THE NATIONAL MARITIME LIMITS BY EU MEMBER STATES

Different European organisations, EU Commission.. put on line a lot of coastal and marine data and design marine maps. To represent the member states maritime limits, they sometime have official contacts in the EU member States, or they find the limits in literature or internet.

They deliver online maritime limits that are not necessary true and not necessary actualized.

The IENWG propose to deliver the way to find this actualized and legal information to the EU Commission and EU organizations which elaborate for their work representations of the EU maritime basins and maritime limits of EU member States.

The final document will be a table with all the participant Member States answers.

That's the reason why we send you this small, but strategic, questionnaire;

It concerns; Baselines, Outer limit of the territorial sea, Outer limit of the contiguous zone, Outer limit of the exclusive economic zone

#### **Questionnaire about the information of maritime limits in EU member States:**

***Member State;***

***Name, Email, organization and qualification of the person who filled the questionnaire***

***Organization in charge of the diffusion of official maritime limits in the Member State;***

***Point of contact for the European Organizations for the legal questions of maritime limits in the member's State***

***Way to find the official actualized maritime limits; (For example, a website, sending an email to the point of contact, filling a form..)***

## FOR FRANCE
