

Advisory Committee

2nd EOOS Advisory Committee Meeting

18/09/2020, virtual meeting

IHO represented in the Advisory Committee by Shom

- EOOS philosophy totally embeded in the EU Strategy for (Marine) data
- IHO proposition approved to begin a dialog with scientific community to improve their acquisition of data and sharing, specially for bathymetry
- Meetings will be organized with scientific community in the area of a EU project « MINKE », HOs will be invited to participate with the partners from their country

IHO represented in the Advisory Committee by Shom

-Mapping existing infrastructures and capabilities;

Currently EuroGOOS is mapping existing infrastructures, networks and initiatives throughout the whole European ocean observations value chain

We promote the taken into account of the HOs

-EOOS Resources Forum

We expressed the need of HOs participation to this forum, waiting next steps.

Idea in the air that resources not only mean new funding, and the main aim of this Forum will be to find ways to ensure sustainable observations.
