Resumo Pergunta Individual

1. Hydrographic Office Name:

5 respostas

Instituto Hidrográfico
United Kingdom Hydrographic Office (UKHO)
Shom (France)
DIVISION HYDROGRAPHIE OCEANOGRAPHIE ET CARTOGRAPHIE (DHOC) DE LA MARINE ROYALE
INSTITUTO HIDROGRÁFICO DE LA MARINA - ESPAÑA

2. What are your email?

5 respostas

geraldes.dias@hidrografico.pt
IBTE@ukho.gov.uk
eric.le.guen@shom.fr
abdellah.hadou@gmail.com, dhoc-cdiv-mr@far.ma
ihmesp@fn.mde.es

3. Do you have any MSDI in your organization?

5 respostas

4. Please insert the web address for your organization MSDI portal?

4 respostas

https://geomar.hidrografico.pt/
https://www.admiralty.co.uk/digital-services/data-solutions/admiralty-marine-data-portal
data.shom.fr + maritimelimits.gouv.fr + maree.shom.fr
https://ideihm.covam.es

5. Is your organization responsible for national MSDI?

5 respostas

6. Is your organization responsible for Marine Spatial Planning (MSP)?

5 respostas

7. Please insert the web address for your organization MSP portal?

2 respostas

N/A
http://www.infomar.miteco.es/

8. What kind of datasets your organization produces/manages?

5 respostas

9. What kind of marine data users does your organization has?

5 respostas

10. How does your organization transfer/share the geospatial data?

5 respostas

11. Does your country has any National Spatial Data Infrastructure (NSDI)?

5 respostas

12. How does your country organize and manage marine geospatial information (e.g., spatial data infrastructure)?

4 respostas

It is being built an MSDI that will serve as access point to all the available marine geospatial information.
UKHO is an agency charged with collating, managing and distributing UK Government owned marine geospatial data.
Each agency is in charge of maintaining and disseminating its reference data (eg for Shom tides, wrecks...). Data interoperability between portals is essential, but difficult to reach. Metadata are referenced on a central government portal (data.gouv.fr)
spatial data infrastructure

13. How can or do you share and integrate your data with other national agencies?

5 respostas

14. Do you have any international, cross-agency, or non-governmental partnerships that facilitate the collection, sharing, and maintenance of data?

5 respostas

15. If you answered "yes" to previous question. Could you identify your international partnerships in MSDI?

3 respostas

At national level, we share data to SNIG (https://snig.dgterritorio.gov.pt) and PSOEM (https://www.psoem.pt). We also share data in accordance with european and international ocean data sharing projects.
UKHO has partnerships with various international bodies and marine states to either share data and/or support and facilitate the collection and management of Marine Spatial Data.
Europe : INSPIRE + MSP projects + EMODnet GEBCO ...

16. How are data added to or integrated with existing geospatial data, including National Spatial Data Infrastructures datasets?

4 respostas

Data is published as web services and it can also be downloaded or called via API.
UKHO is more focused on collecting and distributing an increasing number of datasets as opposed to integrating data at this stage of our MSDI development.
Mainly web services
WMS

17. What barriers do you know of or foresee in using developing a marine spatial data infrastructure?

5 respostas

18. Will be important to develop an effort to organize a MSDI WG under EATHC/CHATO umbrella?

5 respostas

19. What kind of activities should be done by a MSDI WG under EATHC/CHATO umbrella?

5 respostas

20. If a EATHC/CHATO MSDI WG exists will your organization enroll as member?

5 respostas

21. Do you agree to have your answers included in a summary distributed to all the organizations that were solicited and that responded to this questionnaire?

5 respostas

22. Do you accept that the name of your organization appears in the summary?

5 respostas

Thank you for the time you spent to complete this questionnaire. We will contact you again at the end of the year to share together all the results collected.
