# CAPACITY BUILDING WORK PROGRAMME

International  
Hydrographic  
Organization

- A Project Team under the CBSC to draft a revised Capacity Building Strategy
- The C55 PT is put on hold, as further work is dependent on the development of the S-100 products
- Member States who have experience in developing and providing e-Learning contents should consider actively sharing contents, resources, and experience with the e-Learning PT
- Member States should consider participating in the Empowering Women in Hydrography project

IHO

## A REVISED CAPACITY BUILDING STRATEGY

International  
Hydrographic  
Organization

- To prepare a draft to the future CBSC19 and present it to IRCC in June 2021
- Necessity to have SPI's to measure the success of the CB activities better than the actual ones (only measuring the level of execution)
- To adapt the CB Strategy to the new IHO Strategic Plan and align it with the IHO Strategic Goals
- To deal with the prioritization of the S-100 and how MSI is faced

Thank you for the  
attention!
