MBSHC CIRCULAR LETTER No 13/2023

Subject: Greece Proposal on changes to INT Chart Number 3762

Reference:

- A. Region F ICCWG Letters CL 05/2023 and CL 06/2023
- B. Greece Proposal regarding changes on INT chart Number 3762 – attachment to the Region F ICCWG CL 05/2023

Dear colleagues,

1. Region F Circular Letter No 05/2023 from Reference A invited members of the Region F ICCWG to provide their feedback on the Greece Proposal regarding changes on INT Chart Number 3762. According to Greece, it is a request for a minor change in the coverage area of the existing chart which is entirely in the sovereign waters of Greece. The Proposed change is shown in Reference B attached to this circular letter.
2. With one positive reaction received from the United Kingdom, there were no objections to the Greece Proposal regarding changes on INT chart Number 3762, hence it was forwarded to the MBSHC level for approval (Region F ICCWG CL 06/2023, Ref. A).
3. Unless there is any objection reported to MBSHC Chair **no later than November 26, 2023**, I will inform the interested parties that the changes on INT chart number 3762 as proposed by Greece has been formally approved by the MBSHC in the inter-session.

Best regards,

Vinka KOLIC BUBIC, M.Sc.

MBSHC Chair

Director of the Hydrographic Institute of the
Republic of Croatia
