ICC6-4/5

Preliminary considerations

- There is a “wind of change” in cartographic standards and cartographic production
- Are HOs enough involved in this change?
- New IHO strategic plan focuses on three main goals:
 - New services for the mariners
 - Increase consistency, quality and distribution efficiency of hydrographic data
 - seabed knowledge

Discussion ICC6-4

- **Which posture best represents the largest RHC of the IHO?**
- **Is it possible to cover all the MSs needs in only one posture?**
- **How can the RCC take into account all the technical needs of the MSs? Is the burden sustainable when S-1xx implementation will start?**
- **ICCWG priorities:**
 - Full implementation of the ENC scheme or new Scheme for S-1xx?
 - CATZOC attributions
 - Solve ENCs overlaps

Discussion ICC6- 5

ToR and RoP were revised in 2017 and approved by MBSHC20

- Are ICC WG ToR and RoP adequate to reach the objectives?
- Is it possible to improve them?
- What do we need to do better?
