

NAVAREA III Report

España/ Spain

Introduction

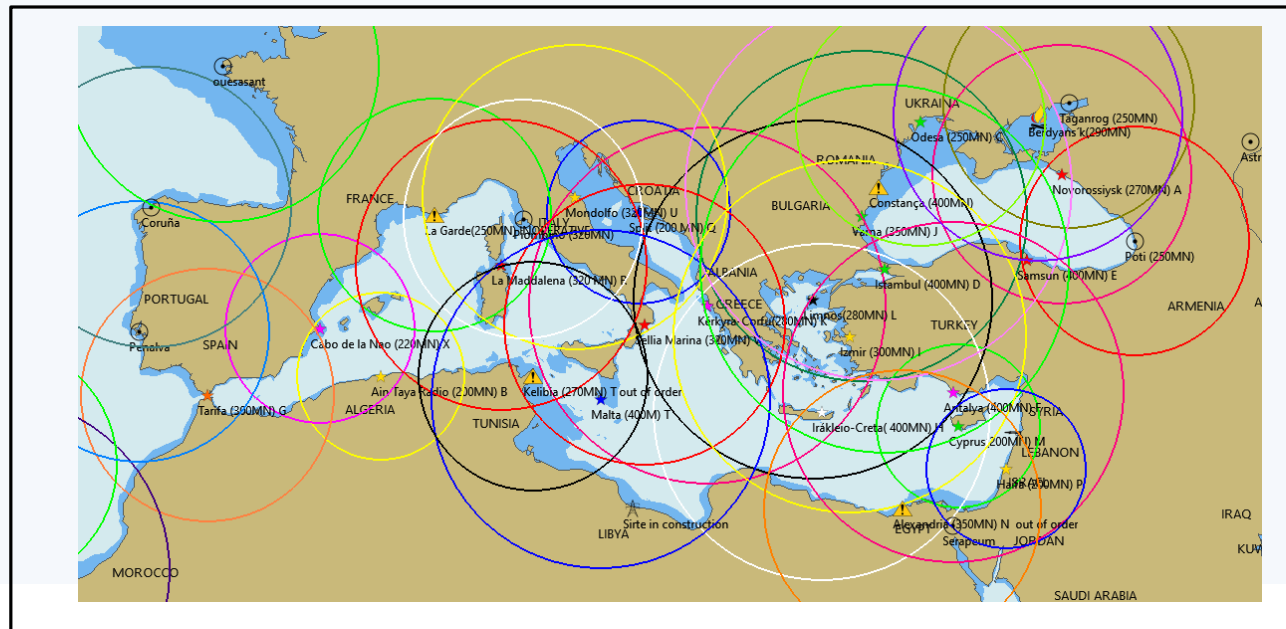

- Since Mar 2022 the NAVAREA III navigational warnings are also broadcast on Full Operational mode on **SafetyCAST of IRIDIUM**.
- Critical for the NAVAREA III Coordinator to have valid and updated POCs.
- The numbers of NAVAREA Warnings continues decreasing due mainly to great coordination between neighbors countries.
- Thanks all MS for updating of the information. Update information of 24 MS can be found in Report on the WEB.

YEAR	NAVAREA III WARNINGS
2020	1739
2021	906
2022	245
2023	119
From APR23 to MAY24	129
Only 2024 (until 09MAY)	50

NAVAREA III Coordinator NAVETX station status

The number of Inoperative Stations is growing clearly since last Meeting; therefore, we encourage NAVTEX Coordination States proceed to repair ASAP to cover their responsibility Navtex areas.

Seven (7) NAVTEX Stations is just now **NO OPERATIONAL**:
La Garde (France) , Kelibia (Tunissia) , Surt (Libia), Alexandria (Egypt),
Lattakia Radio (Siria) , Berdiansk (Ukraine), , Constanta Radio (Romania),
from **28** Internacional/ National and Navtex Stations of **18** States.

Synopsis

- The number of NAVAREA III warnings the last two years have been stabilized.
- Most of them about 75% of the messages are from the Aegean Sea, the Eastern Mediterranean and Black Seas.
- La Garde NAVTEX station has been no operational since the beginning of 2020, consequently the Italian NAVTEX Service (Center) resends the messages from the La Garde NAVTEX service to the NAVAREA III Coordinator for broadcast as NAVAREA III warnings through our satellite services.

Synopsis

- The number of Inoperative Stations is growing clearly since last meeting; therefore, we encourage NAVTEX Coordination States proceed to repair them to cover their responsibility Navtex areas.
- It's crucial for this NAVAREA III Coordinator Center that all Navtex Coordinator States PROCEED to developed S-124 NW following OHI/IMO recommendations until 2026.
- All Member States are encouraged to use only NAVTEX MSI warning for Safety to Navigation purposes as stated on IMO Res A.706 (17).
