- The context
- Round table

## The context

- A2 endorsed the S-100 Implementation Roadmap for the S-100 Implementation decade.
  - S-101 is on the critical time path vis-à-vis inclusion in IMO ECDIS standards.
  - S-102, S-104, S-111, S-124, S-128 and S-129 will be ready for implementation and distribution before S-101.
- A2 tasked the HSSC to prepare a synoptic Dual-Fuel Concept summary report on the various options offered to HOs for the development of their production of S-101 ENCs.
- A2 endorsed the draft WEND-100 Principles.
  - “The guidelines on the implementation of the WEND-100 principles” and
  - Guidelines on S-101 schemes are now being developed.

## Round table

- Internal implementation plans.
  - Strategic choices
  - Obstructions
  - Solutions
- Aim: to share experience.
  - Identify lessons
  - Determine best practices
