

Annex D (V2)
RSAHC10 CL No. 04/2024
29 August 2024

Logistics Information RSAHC10 Meeting

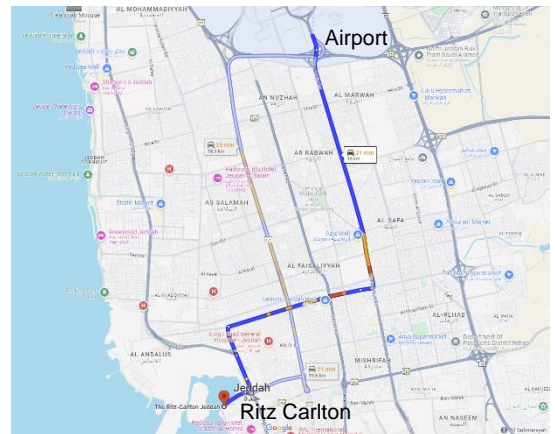

The RSAHC10 meeting will be held at the West Coast city of Jeddah Saudi Arabia. Jeddah is in the Arabian Standard Time (GMT+3). In November humidity is relatively low and daytime temperatures are around 32°C (90°F) and average lows are 24°C (75°F).

The average length of the day in November in Jeddah is 11 hours. On the first day of November in Jeddah, sunrise is at 06:11 and sunset at 17:27. On the last day of the month, sunrise is at 06:30 and sunset at 17:19.

Venue and Accommodation

The meeting will take place at the Ritz-Carlton Jeddah, located on Al Hamra Corniche. We encourage all participants to contact the hotel directly for any questions concerning room availability and to ensure they secure reservations that cater to their preferences. The hotel is located approximately 21 km from Jeddah King Abdulaziz International Airport.

Included below is a map that highlights several nearby hotels, offering more options for accommodation possibilities.

Transportation

Transport from and to the King Abdulaziz Airport will be provided by GEOSA to the Member States, Associate Member States, Observer States and IHO Officials of RSAHC10.

Electrical Sockets

Electrical sockets (outlets) are the "Type G". Electricity voltage in the accommodation and meeting area is 220 V.

Visa

Some participants may require a letter of invitation or other necessary support from GEOSA to process their visa application, while others may register for a tourist visa through the electronic visa system at <https://ksavisa.sa>, depending on their nationality. Please check visa processing time.

GEOSA will facilitate your requirements to best possible extent. Please contact hydro@geosa.gov.sa for related inquiries.
