

THE INTERNATIONAL HYDROGRAPHIC ORGANIZATION

IHO SPI SUMMARY

YONG BAEK IHO ASSISTANT DIRECTOR

IHO INTRODUCTION

Purpose

International Hydrographic Organization

To identity specific strategic goals and targets that will direct the IHO's Work Programme in a way that will foster the IHO vision, mission, and objects.

Vision

To be the authoritative worldwide hydrographic body which actively engages all coastal and interested States to advance maritime safety and efficiency and which supports the protection and sustainable use of the marine environment

Mission

To create a global environment in which States provide adequate, standardized and timely hydrographic data, products and services and ensure their widest possible use.

Challenges

Overview of the strategic context within which the IHO and MSs operate now and will operate in the near future and how this may impact activities

International Hydrographic Organization

GOAL 1 EVOLVING THE HYDROGRAPHIC SUPPORT FOR SAFETY FOR SAFETY AND EFFICIENCY OF MARITIME NAVIGATION, UNDERGOING PROFOUND TRANSFORMATION.

On-going transformation in navigation, such as e-navigation, autonomous shipping, reduction of emissions, lead to profound evolution of hydrographic services, in a context of high demands for digital data.

GOAL 2 INCREASING THE USE OF HYDROGRAPHIC DATA FOR THE BENEFIT OF SOCIETY

The ever-growing applications of marine data entails that IHO takes a more prominent role in cultivating the use of hydrographic data through cooperative and collaborative efforts and identifying the need for collecting more data

GOAL 3 PARTICIPATING ACTIVELY IN INTERNATIONAL INITIATIVES RELATED TO THE KNOWLEDGE AND THE SUSTAINABLE USE OF THE OCEAN

IHO's ambition to be an effective and recognized contributor to the major Ocean related challenges identified by the international community

International Hydrographic Organization

GOAL 1 EVOLVING THE HYDROGRAPHIC SUPPORT FOR SAFETY FOR SAFETY AND EFFICIENCY OF MARITIME NAVIGATION, UNDERGOING PROFOUND TRANSFORMATION.
