	<ul style="list-style-type: none"> NE working on developing a “Sea-Country” map at AusSeabed engaging with indigenous groups. “Sea-Country” defined as areas where indigenous communities have link to land and sea. AusSeabed aiming to produce map showing which indigenous communities are linked to areas of land and sea. NE is interested in any other experiences from the group. DM commented that there may be similarities with initiative in New Zealand. SC and AM provided more detail, may be similar but also will be some differences between different countries. <p>WG to share any Open Data Policies</p> <ul style="list-style-type: none"> AM is putting together a document on the LINZ Open Data Policy, hoping to share in time for the next meeting.

<p>Presentation on IGIF Strategic Pathway 7 – Partnerships by Belen Jimenez</p>	<p>Further progress on SWPHC Workplan Action No 19: Adoption and Implementation of UNGGIM IGIF-H.</p> <p>HP presented summary of research and understanding of IGIF Strategic Pathway 7 – Partnerships. Link to recording to be shared on the MSDI WG Pages when available – MSDIWG IHO</p> <p>Slide deck will be emailed to the group with the minutes.</p> <p>Points to highlight:</p> <ul style="list-style-type: none"> <p>Discussion:</p>

	<ul style="list-style-type: none"> • AM commented on how insightful the partnerships pathway is as it can be easy to go into partnerships without a strategy and this pathway provides some structure to think about before starting a new partnership and continuing recommendations as the partnership develops. • SC commented on links with collaboration with indigenous groups where partnerships can be a long term project.
Half Yearly Review of Terms of Reference and Working Group Practice	<p>Review of Working Group Terms of Reference, working group operating procedures and work plan for the next 6 months, leading up to SWPHC2 I.</p> <p>Terms of Reference Review:</p> <ul style="list-style-type: none"> • NE highlighted that it would be good to define roles of the working group (Chair, Vice Chair, Secretary, General and Standing members etc). AusSeabed Steering Committee has some terms of reference that can be used as an example - AusSeabed ToRs • AM will be able to share the MGI steering committee terms of reference which were adopted from the AusSeabed ToRs. We may be able to adopt some of the standard definitions. • SC mentioned MACHC has MSDI WG Terms of Reference which we could learn from. Link here for review - MACHC MSDI WG TOR Reviewed Final.pdf <p>Review of Working Group Operating Practices:</p> <ul style="list-style-type: none"> • HP invited members to comment on working group practices, suggestions on timings, dates, length of meetings. What works well in the working group, what could be improved, are members finding the agenda items useful? • General consensus that timings are ok with the group, some flexibility with timezones as daylight savings take effect in various regions may be required.
