Organization

South West Pacific Hydrographic Commission

Main achievements during the year

- Successful removal of tide station from its existing location at the old Port Facility.
 - Installation of the new tidal gauge facility station at the new wharf – April 2024
- Transfer of Nauru survey dataset to PCA (UKHO) – in progress
 - Aiming to get the 1st Nauru paper charts issued for Port completion – November 2024
 - ENC (Electronic Navigational Charts) would also be available

Hydrographic
Organization

Main challenges and/or obstructions

- Setbacks on work progress on the ongoing Nauru Port Development Project and its completion date due to impact from recent bad weather (since November 2023)
- Lack of available resources (staff, training, equipment, etc)
 - Dedicated Hydrography unit yet to be established
- Political will – change of Government (new) in October 2023

IHO

International
Hydrographic
Organization

Any other matters of interest

- Update survey data after new port/wharf project complete
