

**IC-ENC TECHNICAL CIRCULAR LETTER - No. 07 OF 2022**

To: IC-ENC Technical Contacts

From: Technical & Standards Manager

14<sup>th</sup> February 2022

Dear IC-ENC Technical Contacts,

**Technical Conference 22\_2 Invitation and Agenda**

IC-ENC would like to invite your organisation to participate in Technical Conference (TC) 22\_2, which will take place over one day on 16<sup>th</sup> March 2022. TC22\_2 will consist of three short, targeted sessions.

This TC is planned to include a session to discuss the recent ECDIS Safety Study of the UK and Danish Marine Accident Investigation Branches. This seeks to support discussion on how IC-ENC members could improve the experience of ECDIS for end users. An update from the ENCWG Chair on the current standards for HD ENCs and an end user case study seeks to support further discussions on HD ENCs.

A draft agenda is provided at Annex A to this letter, including timings. Comments and suggestions for the agenda are welcomed.

The IC-ENC Learning Management System (LMS) will be utilised for the delivery of TC22\_2, to simplify administration and allow documents to be provided for easy access. Through the LMS you will be able to access the Microsoft Teams Links for the seminars and access the documents for TC22\_2. The event is now live for members to self-enrol and 'sign-up' for the seminars and can be accessed by clicking on the following link: [Course: Technical Conference TC22\\_2 ECDIS and HD ENC](#) a guide on how to 'sign up' is included in Annex B if needed.

If you do not already have an account for our IC-ENC LMS please complete the following short MS Form to request one: [IC-ENC LMS Account Request](#).

We are also happy to confirm the date for TC22\_3 which will take place on **26th April 2022**, this TC will focus on S-101 including the options for gridding ENC schemes, further details will be communicated soon.

Kind regards,

Thomas Richardson  
IC-ENC Technical & Standards Manager
