

PRIMAR[®]

WENDWG13 PRIMAR S-100 Implementation Plans

Hans Chr. Lauritzen, Director PRIMAR

PRIMAR S-100 Roadmap

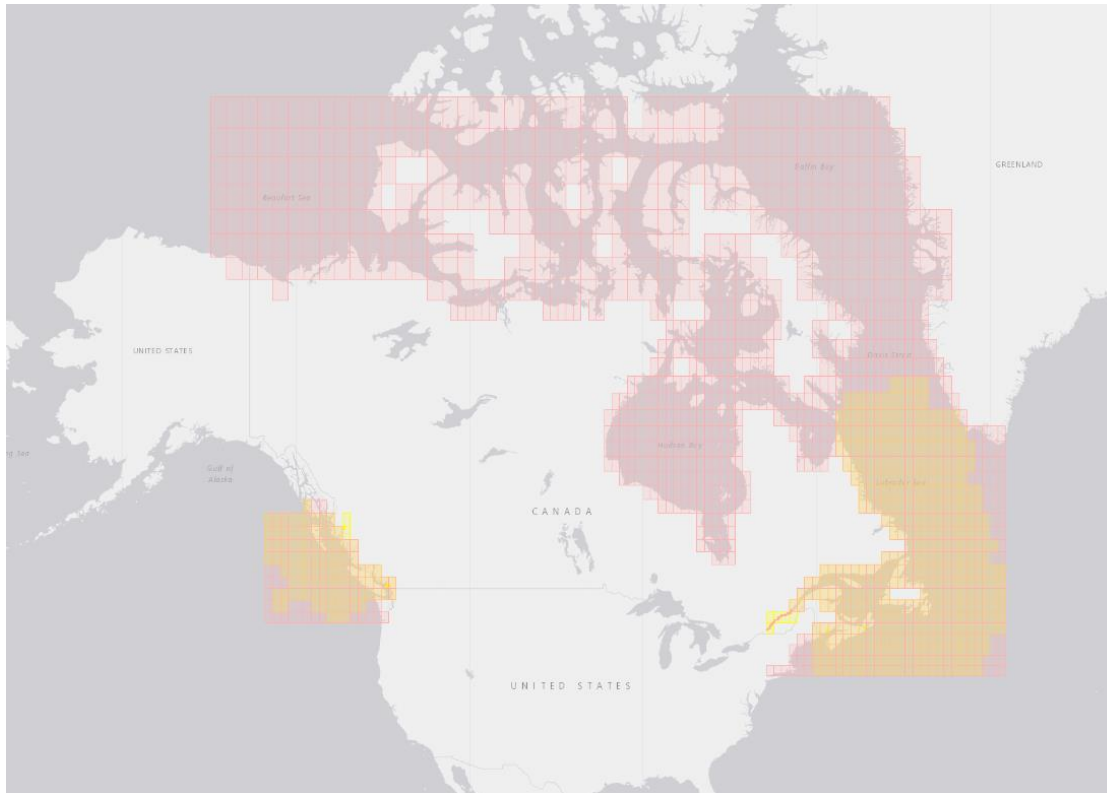

Involved in R&D Projects:

<https://s102.no/>
<https://s-100.no/>

PRIMAR S-100 Service

- The PRIMAR S-100 Service was launched July 2020
- 2500 S-102 / S-111 datasets from CHS and 45 S-102 datasets from NHS.
- Encrypted by S-100 part 15
- Automatic upload through CARIS cloud or manual through PRIMAR VPN
- Push of data through the PRIMAR Remote Update Protocol

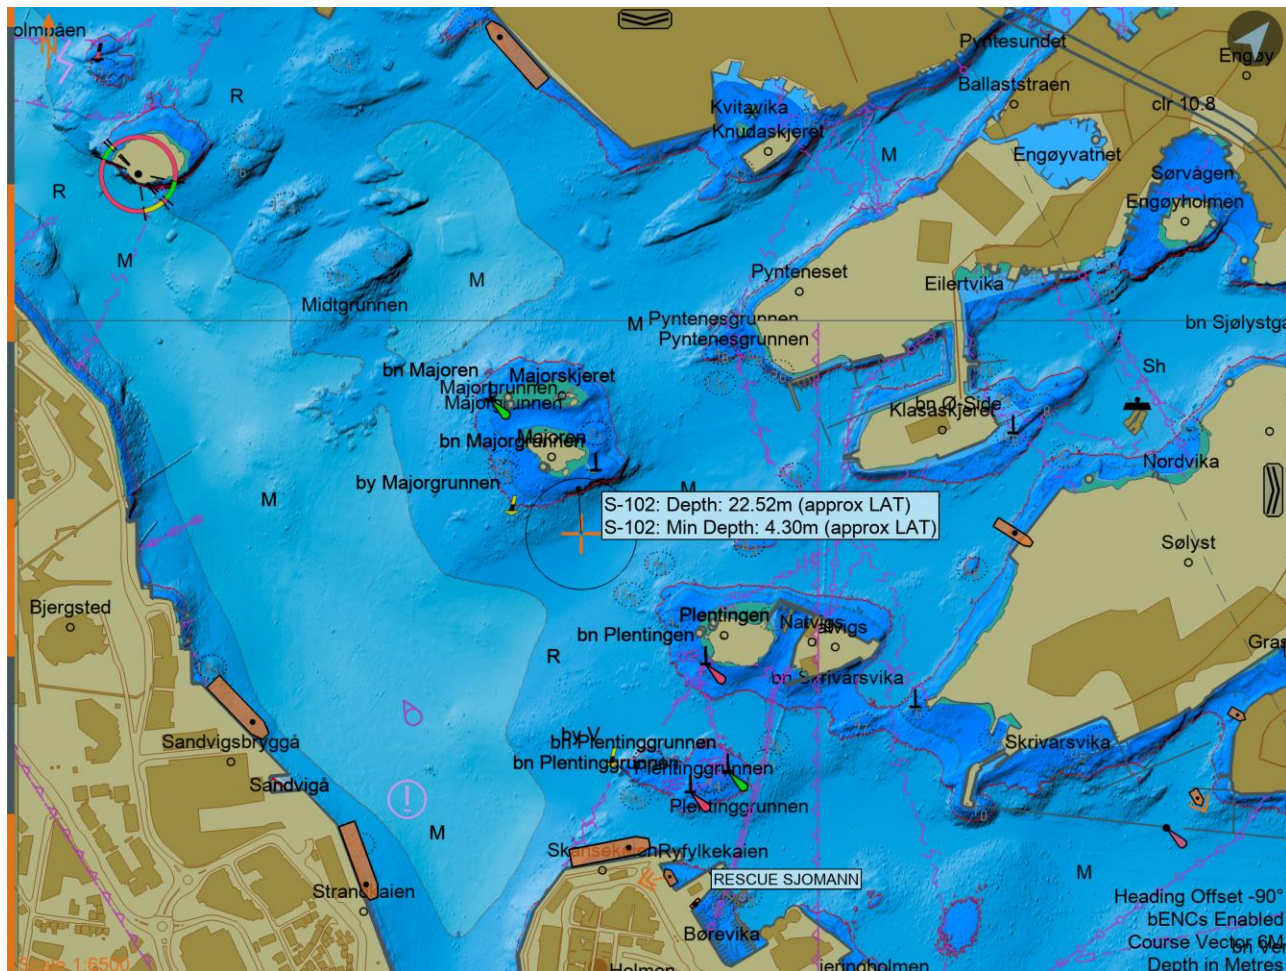

PRIMAR®

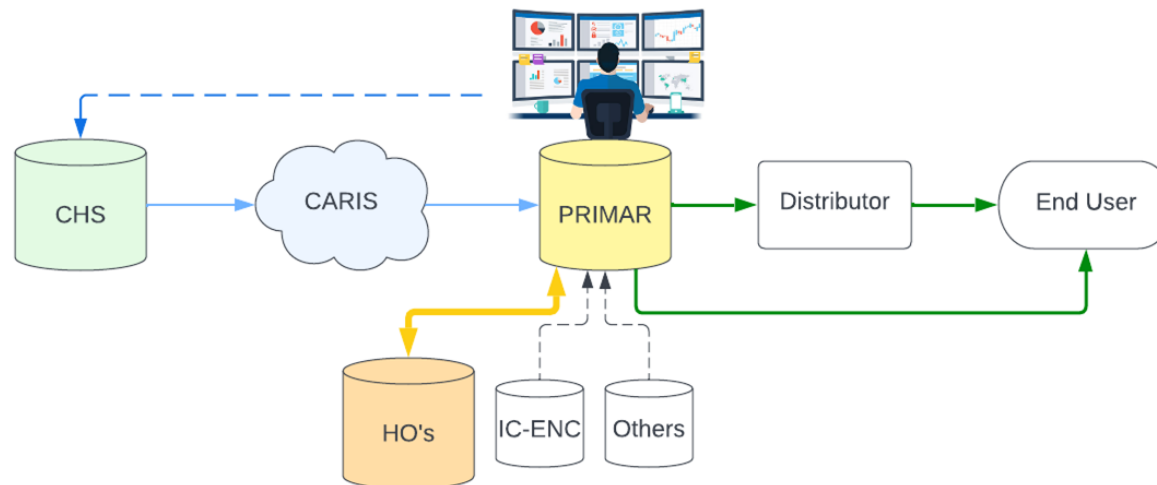

PRIMAR S-100 Service

Norwegian S-102 data in SEAiq end-user software.

PRIMAR S-100 Service

- Further scope and milestones:
 - Continue the cooperation between PRIMAR, CHS and CARIS related to production, management and distribution of S-100 products.
 - Expand the S-100 Service with data from other nations/producers.
 - Expand the type of S-100 products in the Service.
- Develop support for S-104 in PRIMAR S-100 Service
- Include delivery of the S-57 ENC via the same value chain.
- Automation of the validation process at upload

S-57 / S-101 Dual Fuel Service

- S-100 program initiated in 2018
- Develop support for S-100 data model in PRIMAR services and functionality
- Establish dual-fuel S-57 & S-101 distribution
- Online HO services for QC and Data Management support S-100/S-101
- Provide S-101 testdata and dual-fuel service interface to manufacturers developing support for IHO S-100/S-101 standards
- Value
 - Feedback to IHO WG on S-100 standards
 - Testing of S-100/S-101 service elements towards PRIMAR member states and distributors
 - Trial dual-fuel S-57/S-101 distribution service
 - Harmonised S-100 transition plan

S-100e5 Service Upgrade

- Upgrade of PRIMAR services
- Triple services
 - S-63
 - S-100e4
 - S-100e5
- Provide support to everyone implementing S-100e5

PRIMAR Conversion Task Force Project

- PRIMAR approached by HO's requesting feedback on guidance on data conversion (conversion strategies, sharing of experiences, transition to S-10x, dual-fuel production).
- Conversion Task Force Project agreed by PRIMAR Advisory Committee (PAC) in November 2020.
- Terms and conditions agreed with PRIMAR Member States end of May 2021.
- ...and a possibility for PRIMAR Member States to participate in other PRIMAR S-100 projects with HO's own S-101 ENC test data.

PRIMAR Conversion Task Force Project

Project Lead:

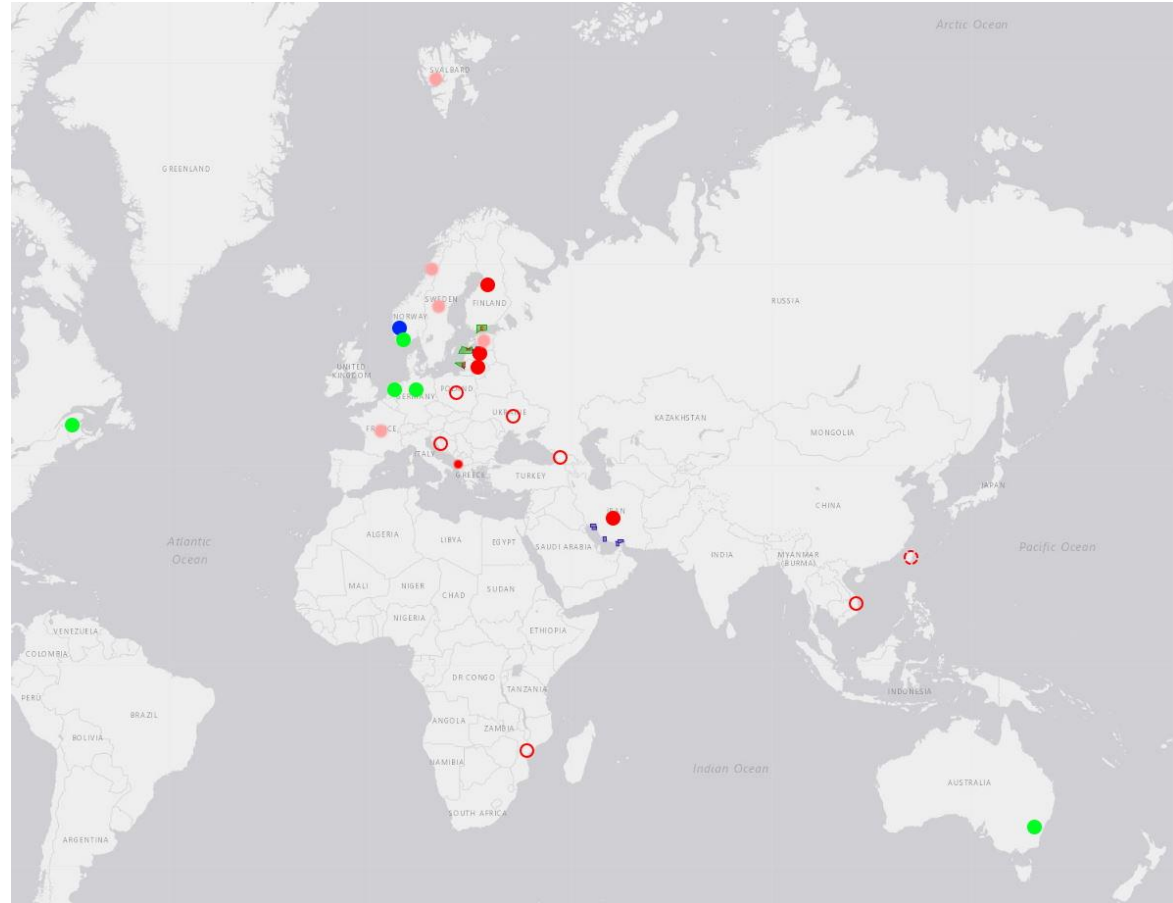

PRIMAR

Active HO Participants:

~12 PRIMAR member states

Industry (OEM) participants:

- i4Insight
- SevenCs/Nautical Dimensions
- Teledyne CARIS

Blue dot – PRIMAR

Pink dots - Group 1 Member states

Red dots - Group 2 Member states

Red circles - Group 3 Member states

Green dots - OEMs

Systems Providers in CTF Project

Teledyne – CARIS platform – online converter.

- Online tool with FC 1.0.0 conversion
- S-57 to S-101 conversion

SevenCs – 7Cs Analyzer – S-101 ENC validation

- Latest version 5.1.0 with selectable FC version option and S-101 portrayal module.

i4 Insight – dKart platform – desktop and AWS PC converter

- Local and AWS installation option
- Latest version 1.0.0.1965 with selectable FC versions for conversions
- Both ways conversion - S-57 to S-101 AND S-101 to S-57 conversion
- Visual inspection and analysis of conversion results

PRIMAR PORTAL - upload checks, validation and ENC release “sandbox”

- VPN, VRC
- Dual Fuel release
- PRIMAR Training Portal with various S-100 module courses
- GitHub for system support, questions and answers and knowledge and experience exchange

CTF Project plan and phases

The project is divided in 3 phases:

- Resource, license and cost limitations restrict number of participants who can access some tools simultaneously.
- PAC has enabled funding to enable all PRIMAR Member States to participate.
- Flexible Group participation approach applied for best time fit for each HO “active phase” conversions.

CTF Phase 3 - Project Reporting

Activities	Oct	Nov	Dec	2023 Jan	Feb	Mar	Apr	May	Jun	Jul
Report on standardisation status										
Report on conversion results										
Report on validation results										
Report on conversion/national guidance										
Identify development issues to improve conversion/validation										
Report on strategic issues										
Review draft report										
Final report available										
Final Presentation PSWG/PAC 2023										

- Prepare final report to PRIMAR Advisory Committee
 - Based on guidance and feedback from HOs and PRIMAR
- PRIMAR and HOs co-produced guideline procedures for data conversion and validation
 - Pre-processing of datasets (depends on HO participants activity and feedback)
 - Conversion and validation procedures
 - Post-processing of datasets (depends on HO participants activity and feedback)
 - Strategic and resource requirements (depends on HO participants activity and feedback)
- Status reports at PAC/PSWG/PFWG (2021 - 2023)
- Feedback to IHO S-57 to S-101 Conversion Sub Group (ENCWG) and other appropriate S-101PT Sub Groups

S-128

- Establish catalogue service compliant with S-128 Exchange Catalogue
- Feedback to:
 - IHO S-128 project team
 - NIPWG

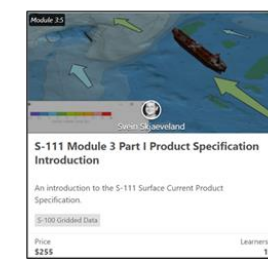

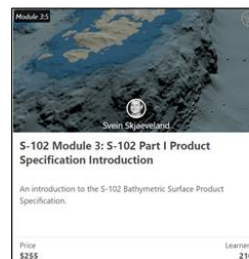

PRIMAR E- Learning Status

Launch of PRIMAR Learnworlds training portal June 2021 & continued investment in CCR056

- Current modules
 - 6 modules S-100/S-101 (2021)
 - S-100: Data Model, IHO Registry and Part 15 Data Protection.
 - S-101 General, Data Quality, Conversion Challenges.
 - 8 modules S-100/S-102/S-111 (2022)
 - S-100: Part 8 Imagery and Gridded Data, Part 10c HDF5 Data Model.
 - S-102 Product Specification, Data Encoding Format, Portrayal.
 - S-111 Product Specification, Data Encoding Format, Portrayal.

- High usage rate
 - 321 students (210 PAC)
 - 201 issued certificates

- Decision from PAC 28:
 - S-104 Training needs

PRIMAR SECOM Project

- IMO e-navigation and MCP in rapid development
 - All relevant e-navigation standards are available in 2022
 - MCP service security and protection achieved with IEC SECOM standard
 - Service providers publish service specifications and develop services
- PRIMAR Service Strategy Initial discussion on PSWG meeting May 2021
 - PSWG 2022 supported delivery of e-navigation services on IMO MCP
 - PAC 28 (2021) supported provision of G1128/SECOM service specification
 - IMO e-navigation services will become important pre-requisite for S-100 development among stakeholders

SECOM Project Scope

- **Content and deliverables (divided in three connecting phases)**
 - a. Phase 1 (2022) Deliverables
 - Monitor standards development and development of e-navigation services (project planning and management)
 - Prepare a PRIMAR e-navigation technical service interface specification compliant with IALA G1128 and IEC SECOM
 - PAC 29 (2022) to agree and provide directions on further activities
 - a. Phase 2 (2023) Deliverables
 - Develop and make available PRIMAR E-navigation services in accordance with service specification
 - Approach and make services available for testing in international IMO MCP E-Navigation trials
 - PAC in 2023 to agree and provide directions on further activities
 - a. Phase 3 (Possibly 2024)
 - *Provide trial services to international IMO MVP E-Navigation services*
 - *Release PRIMAR E-Navigation Services with S-57/S-101 and other S-100 content*
 - *PAC 2024 to agree and provide directions on further activities*

IHO S-100e5 Data Protection Scheme

- IHO is Scheme Administrator for S-63 and S-100e4
- Standard changes in S-100e5 data protection
- Empower IHO to operate as S-100e5 Scheme Admin
 - Upgrade software tools S-100e5 Scheme Admin
 - Functionality to digitally sign files S-100e5
 - Procedures handbook and training
- MOU to be developed between IHO and PRIMAR
 - Capacity building, policies, training

IHO S-100e5 Data Protection Scheme

Timeline 2023

- Q1 – Agreement on protection scheme policies
- Q2 – Complete development, procedure handbook, training and set S-100 scheme in operation
- Q3/Q4 – Retraining of new IHO staff
