

**Nomination of Mr Jason SCHOLEY
for the position of Vice-Chair**

<i>Submitted by:</i>	UK
<i>Executive Summary:</i>	Nil.
<i>Related Documents:</i>	WENDWG Letter 03/2022
<i>Related Projects:</i>	N/A

Short biography

Jason is a Senior Product Manager at UKHO. He is responsible for a portfolio of paper and electronic navigational services including Electronic Navigational Charts (ENCs). This has required him to develop a deep understanding of the needs of the users and deliver services to meet these needs, requiring consideration of both the technical production and distribution methodologies. He has been involved in the specification and delivery of ENCs since the mid-1990s when he was part of the UKs delegation to the IHO Working Group developing S-57 and was the UK representative in the development of S-52. In more recent times, Jason has been at the heart of the UK's investment in the S-100 standards with a particular focus on how S-100 services will be delivered to navigational users. He was an active member of the WENDWG drafting groups on the WEND-100 Principles, Implementation Guidelines and ENC Scheming.
