Dear Yves,

I hope you are all the best.

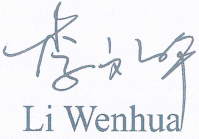

Regarding to the upcoming election of IHO Data Quality Working Group (DQWG) Chair Team, China MSA is glad to nominate Mr. Lingzhi WU as the candidate for the post of Chair.

The quality of data determines the availability of the hydrographic data and is of great significance for improving safety of navigation. With your support and the leadership of Chair Team, DQWG has made significant achievements in developing S-67 & S-68 and providing guidance on data quality issues for the new generation S-100 standards. China MSA would like to take this opportunity to express much compliments to the working group.

China MSA will continue to support the efforts of IHO and DQWG in improving the quality of Hydrographic data and maximizing the use of

Hydrographic data on a worldwide basis, in order to promote safety of navigation and protection of marine environment.

Best wishes,

Li Wenhua
