France Paper- ENC Display Sub-Group: the way forward

Due to the fact no major changes will be made to S-52 Presentation Library, and to the set-up of the S-101 Portrayal Sub-Group, it is proposed to organize the transfer of the issues identified by the ENC Display Sub-Group to the ad-hoc Working Groups and then disband the former one

IC-ENC Paper

1. VALSOU to two Decimal Places
2. RCID Reuse
3. MAGVAR Encoding at Small Scales

Proposals

1. Consider clarifying via an FAQ or Encoding Bulletin and then within the UOC whether VALSOU may be populated to two decimal places in S-57 ENC.
2. Consider the expansion of S-58 test datasets to cover both positive and negative cases for check 3 to ensure that this case is adequately covered.
3. Consider expanding guidance at 3.1.1 of the UOC to cover the encoding of MAGVAR on small scale ENC cells.

Master / Slave Update

The following notice has been added to the download section of S-57 and S-58.

WARNING: The IHO standard S-57 contains the outdated terms, Master and Slave. These terms were widely used within computing when the standard was first published. However, the IHO have recognised these terms are no longer acceptable, and all future IHO standards will no longer reference them. For backwards compatibility and to avoid any unintended consequences the IHO will not update the current edition of S-57 to modify any of the language used

Next Meeting

2021 - ENCWG-6 (VTC) Proposed dates 22 – 24 June to Thursday June

2022 – ENCWG-7 and S-101 PT have agreed a joint meeting. New Zealand HO have offered to host. The date of meeting yet to be confirmed but due to the on going pandemic it is proposed the meeting take place in the latter part of the year possibly Oct/Nov

Election of officers

During ENCWG-6 an election will be held for the positions of, Chairperson and Vice Chairperson, anyone wishing to apply for these positions should email Yong BAEK adtd@iho.int with their nomination.

CIRM S-100 ECDIS workshop. 14/15 April.

Online meeting organised by CIRM to consider and discuss all aspects of the introduction of support for S-100 in ECDIS, including the transition to S-101 ENCs, amendments to MSC.232(82), and the concept of dual-fuel ECDIS. IHO Technical Director and HSSC chair have confirmed attendance.

HSSC

2021 - HSSC-13 (VTC) 3 - 7 May
