

S-11 Part A update

Aim

- ▶ Updating S-11 Part A Section 200 to also include information about S-101
- ▶ Current version is written with only S-57 in mind so many sections require re-writing

Progress & Challenges

- ▶ We have identified the chapters that require updating and done some minor changes
- ▶ Certain concepts for example scales require quite extensive re-writing that will require a little more time

Way forward

- ▶ We hope to have to work done by the end of the year
- ▶ It will then be sent to the WG for comments
- ▶ WG endorsement by March 2025

Action requested

- ▶ Note this information
