

S-123 Task Group Update and Next Steps

NIPWG-10 (September 12 to 15, 2023)

Presented by Shwu-Jing Chang, National Taiwan Ocean University
(Representative for the S-123 Task Group)

S-123 Task Group Updates

- Seventeen (17) task group meetings have been held to date.
- All feedback comments have been reviewed by the task group (59 pages).
- The task group is working to finalize the feedback document and remodelling proposals.
 - Once finalized, they will be submitted as the List of Changes and recommended to NIPWG.

Follow-up Regarding NIPWG Action Items

- NIPWG 2023 VTC 2 Action Item #01:
Task Group leads to prepare plans on how to implement Data Quality based on the recommended template of the Data Quality chapter of 'S-1XX Data Product Specifications' developed by DQWG.
 - A data quality chapter will be included in the next version of the S-123 Product Specifications (Edition 1.1.0).
- NIPWG 2023 VTC 2 Action Item #09:
Task Group leads to review SHOM presentation and mark up items which belong to each Task Group.
 - The S-123TG has reviewed the presentation and there did not seem to be anything related to S-123.
 - However, it is possible that Sailing Directions publications may refer to other publications that would contain content that would fall under S-123.

Closing Remarks

- The S-123 task group is finalizing their work to propose a List of Changes to bring the S-123 Product Specification from Edition 1.0.0 to 1.1.0.
- NIPWG is invited to:
 - note this presentation and
 - take any actions as appropriate.
