

S-101PT Letter 01/2022

01 February 2022

S-101PT Catch-Up March 2022 and PT9 Meeting

Dear S-101 Project Team Members,

At S-101PT8 in December we reviewed our Workplan and noted the need for additional meetings to deliver S-101 1.1.0 as planned. I would therefore like to announce that an S-101 Project Team (PT) catch-up will be held as a remote meeting as follows.

15th March 2022, from 11:00 – 14:00 UTC

An agenda and meeting link will be shared in due course for this event. This meeting will review progress on Workplan items and discuss the S-101PT report to the HSSC meeting in May. It will not be a full Project Team meeting.

In order to plan ahead the following date is proposed for the PT9 meeting.

30th May to 1st June 2022, from 12:00 – 15:00 UTC

This will be a remote meeting but with additional time to allow more progress to be made. This meeting will consider papers that could not be taken at the PT8 meeting in December. If there are any issues with this proposed date, please contact the PT Chair.

If you plan to attend the catch-up meeting, please inform jeff.wootton@iho.int and thomas.richardson@ic-enc.org by email. There is no requirement to formally register for this meeting.

Yours sincerely,

Tom Richardson
(IHO – S-101PT Chair)
