

S-101PT Letter 07/2024

17th October 2024

S-101 Project Team 14 Meeting Update

Dear S-101 Project Team Members,

I would like to provide an update to PT members on the following two items;

1. S-101PT14 Meeting

Further to S-101PT Letter 06/2024, the 14th meeting of the S-101PT will take place from the 10th to 11th of December 2024. A draft agenda is included at Annex A of this letter. S-101PT members are strongly encouraged to consider items for inclusion on this agenda, especially any issues identified from the production and testing of S-101 datasets.

PT members are requested to;

- Register for the PT14 meeting through the [IHO Portal](#). Those of you who have an account in the IHO Portal and have registered as a member of the S-101PT should have received an email requesting this. If you have not yet created an account in the Portal and/or you have not yet joined the S-101PT members list in the Portal, you will need to do this in order to register for the meeting and access the meeting documents and Papers. Instructions on the process of doing this is [here](#).
- Review the agenda and provide any comments and proposals for agenda items by the 1st November 2024.
- Submit proposals not later than the 22nd November 2024.
- Consider the provision of any testbed updates and propose these for the agenda.

I look forward to seeing you all online in December to continue to evolve S-101 beyond Edition 2.0.0.

2. S-101 Edition 2.0.0 Delivery

I can now confirm that S-101 Edition 2.0.0 DRAFT was successfully endorsed by HSSC Circular Letter 02/2024. We will now prepare FINAL DRAFT documents which will be posted in the GI Registry in readiness for the publication of an IHO Circular Letter.

For PT visibility the links below provide access to the Final Draft edition 2.0.0. Although they remain subject to approval PT members may wish to consider these documents. The Portrayal Catalogue will be available in due course.
