S-100 Version No.	Part No.	Section No.	Proposal Summary
4.0.0	4a	Table 4a-4 footnotes	Footnote "i" is missing explanation.

Change Proposal

The change proposal suggests adding the explanation footnote "i" is supposed to give, or remove footnote reference

Name of the scope/type of resource for which the metadata is provided	MD_Metadata.metadataScope > MD_MetadataScope.resourceScope	C_i

a) The Profile imposes a mandatory obligation on the metadata element metadataIdentifier.

b) Language: documented if not defined by the encoding process.

c) characterEncoding: Documented if UTF-8 is not used and not defined by the encoding process.

d) Documented if a higher level of hierarchy level exists (for example if the geographic 'dataset' is part of a 'series').

e) Distance is preferred over equivalentScale because the scale will change when presented at different sizes on a screen. distance or equivalentScale must be documented if available.

f) characterSet: Documented if ISO 10646-1 is not used.

g) Include either the geographic bounding box (extents) or the geographic description (It is recommended that geographic bounding box should be used - see Section 5.6.3).

h) If any one of west longitude, east longitude, south latitude or north latitude exists, then the remaining three must also be completed.

Source: Adapted from Table 3 - *Core metadata for geographic datasets* (ISO 19115:2005).

Mandatory attributes are nillable.

Change Proposal Justification

This proposal:
1) correct an inconsistency.

What parts of the S-100 Infrastructure will this proposal affect?

☐ S-100 Feature Concept Dictionary Interface or Database
☐ S-100 Portrayal Register
☐ S-100 Feature Catalogue Builder
☐ S-100 Portrayal Catalogue Builder
☐ S-100 UML Models

Please send completed forms and supporting documentation to the secretary S-100WG.
