To: S-100 Working Group Members

Date 21 August 2019

S-100WG4-4.13 Miscellaneous Revisions, Clarifications, and Corrections

Dear Colleagues,

The S-100 WG4 meeting agreed that proposals 3 to 35 in paper 4.13 (Miscellaneous Revisions, Clarifications, and Corrections) were all minor clarifications and should be distributed by Working Group letter for approval in order to save time at the meeting.

I am attaching S-100 WG4-4.13, with the content for items 1 and 2 stricken since these two items were decided at the meeting. The missing definition for "ASCII" in proposed revision #9 has been added since the meeting. Please send feedback or substitute wording in the attached comment form. Significant changes to a proposal should be submitted as a substitute proposal using the standard S-100 change proposal form, available at the S-100 working group page on the IHO web site.

Please restrict any comments in the comments form to the proposals in S-100 WG4-4.13 items 3-35. Any additional proposed revisions to S-100 should be submitted as an S-100 change proposal request using the standard S-100 change proposal form.

Please respond with any feedback by **September 6, 2019**. Non-response will be taken as agreement to proposals 3-35.

Best Regards,

Julia Powell
Chairman, S-100 Working Group
