

S-101PT10

Validation Check Update Test Dataset Update

Agenda Item 6

S101PT10, Brest, France, 13 – 15 June 2023

IHO

VALIDATION CHECKS

International
Hydrographic
Organization

An initial set of Validation Checks have been published for S-101 1.1.0

It is recognised that feedback and further development of these checks is needed

S-100 WG has established an S100 sub group that will develop the S-100 level checks

VTC planned for July S-101PT members are encouraged to contribute and implement the draft checks if possible

IHO

TEST DATASETS

International
Hydrographic
Organization

- During 2023 the special projects funded the creation of 21 S-101 Test Datasets which support comprehensive S-101 cells in support of testing and Portrayal Catalogue development
- Work has commenced on S-164 and S-58 test datasets for S-101 by GEOMOD
- The intent is to have an initial set of datasets for S-101 1.2.0
