OVERVIEW

International
Hydrographic
Organization

- I was able to attend the HSSC14 meeting in May 2022 and it was useful to be able to engage with the HSSC chair group face to face
- As the focus of the S-101 Project Team on delivery of S-101 2.0.0 is clear there were few specific HSSC actions related to S-101PT
- However there are some decisions and actions which should be noted
