"Private Key"

Change Proposal

Changing the abbreviation "SK" - "Secret Key" to "PRVTK" - "Private Key.

Change Proposal Justification

If the abbreviation "SK" - "Secret Key" is the private key as defined in S-100 Ed. 5.0.0 Part 15 "Data Protection Scheme", the correct term should also be used.

S-100 Ed. 5.0.0 states "public key" and "private key", not "public key" and "secret key". From a technological point of view, the term "private key" is correct.
