

IHO File No. S1/1811

**CIRCULAR LETTER 22/2021**  
**21 June 2021**

## **NEW INTERNATIONAL HYDROGRAPHIC REVIEW WEBSITE**

Reference: IHO Work Programme 2021 – Task 1.2.1

Dear Hydrographer,

1. The International Hydrographic Review (IHR) is an international scientific journal publishing peer-reviewed papers on all aspects of hydrography and associated subjects, ranging from the latest technical developments and significant events to book reviews and historical recollections. The IHR was first published in 1923 and has been published regularly since then. Associated with the celebrations of the IHO 100<sup>th</sup> Anniversary, the IHO Secretariat is pleased to announce the launch of the new International Hydrographic Review website.
2. The International Hydrographic Review website aims to modernize the display of the IHR contents in a more attractive and functional way. One important aspect is the classification of the articles by collections, to allow the users to find articles by the respective main topics (collections). The new IHR website is available at <https://ihr.iho.int/>.
3. The Secretariat would like to invite Member States to visit the IHR website and encourage all to submit Articles and Notes to the IHR

On behalf of the Secretary-General

Yours sincerely,

Luigi SINAPI  
Director
