NOTES

Action / Notes column	Strategic-level activities covering the full 2027–2029 programme cycle. Year-by-year operational specifics (meeting dates, quarterly milestones, decision references) are
Travel budget	Managed separately via the IHO Travel Tracking Sheet. The travel budget activity in the Governance section references that tool.
Strategic vs. operational detail	This is a 3-year strategic Work Programme for 2027–2029, held at outcome/activity level. Operational detail — specific meetings, dates, quarterly milestones, attendees and decision references — is tracked in the companion Annual Work Plan, linked back to this programme via the WP activity IDs.
New 2027-2032 items	IC (Goals 1 and 3), JWG-MGI (Goal 2), Country Profiles (Goal 3) are new or substantially expanded relative to the 2026 Work Programme.
HSSC	Added as a dedicated activity in Goal 3 — organise annual HSSC meetings — parallel to IRCC and CDSC. The HSSC WG meetings row below it covers the individual working group sessions.

Assistant Directors (ADs) — review	Reviewed by the IHO Assistant Directors (ADs). This version (V15) incorporates AD review of the activity descriptions, accountabilities and lead assignments across all goals.
HSSC18 (May 2026) — structural only	Only overarching HSSC18 restructuring decisions folded in: ENCWG/S-101PT merger (S-101 PS now maintained within ENCWG); S-121PT disbanded with S-121 scope moved under S-100WG; ICE PT disbanded (IHO IC established). HSSC18 product approvals, edition updates and 2026–2027 actions are operational and tracked in the Annual Work Plan, not here.

PLANNED UPDATE CYCLE

Programme cycle	This is a 3-year Work Programme covering the 2027–2029 cycle, aligned to the IHO Strategic Plan 2027–2032. The strategic programme is rebuilt once per 3-year cycle. Within the cycle, annual operational planning and progress tracking are handled in the companion Annual Work Plan.
This version is an exception	V10 was produced outside the normal cycle because of the 2026 IHO Assembly and the adoption of the new Strategic Plan 2027–2032, which required a structural rebuild rather than a routine update. From 2027 the strategic programme is held stable across the 3-year cycle, with annual operational tracking carried in the Annual Work Plan (HSSC18, IRCC18 and C-10 decisions reflected there).
Maintaining the programme	Across the 3-year cycle, review the Action / Notes column for each activity against HSSC, IRCC and Council decisions. Add new activities where new workstreams are established and mark milestone activities complete as delivered. Routine year-by-year changes are captured in the Annual Work Plan: the strategic programme is amended

Precedence for updates	Assembly decisions > Council decisions > HSSC/IRCC decisions. Where a more recent body has superseded an earlier decision, update the action note and flag the source reference (e.g. 'superseded by C-10/xx').
Version control	Increment the version number on each revision. Record the date, the sources incorporated and the AD review status in this Notes & Legend tab.
