IHO MEMBER STATES' COMMENTS IN RESPONSE TO IHO CL 33/2026

ARGENTINA (Vote = YES)

Argentina approves the revised IHO Work Programme 2027–2029 as presented and has no further comments.

Comment by the IHO Secretariat:

The IHO Secretariat thanks Argentina for their comments.

COLOMBIA (Vote = YES)

This IS WP 2027-2029 is correctly aligned with the goals of IHO. Colombia hopes to contribute to the development of this.

Comment by the IHO Secretariat:

The IHO Secretariat thanks Colombia for their comments.

FRANCE (Vote = YES)

WP-G1-16 and WP-G3-01 contains redundant and overlapping actions. We recommend moving most if not all IHO IC-related activities to the GOAL 3: S-100 Technical Infrastructure (T1) section.

Cooperation with the WMO could be more visible in the programme, as Phases 2 and 3 feature multiple targets and actions for developing meteorological S-100 product specifications.

Should 'IHO IFC' be changed to 'IHO IC' (IHO Infrastructure Centre) here for consistency, or does it refer to a different entity ?

Comment by the IHO Secretariat:

The IHO Secretariat thanks France for their comments which are reflected in the final version dispatched (Annex B).

INDONESIA (Vote = YES)

Indonesia approves the revised IHO Work Programme 2027-2029, appreciates its alignment with the IHO Strategic Plan 2027-2032. Indonesia supports the continued emphasis on S-100 implementation, capacity development, hydrographic surveys, MSDI, GEBCO, and strengthened international cooperation, as well as reaffirms its commitment to contribute actively through the relevant IHO Working Groups and Project Teams.

Comment by the IHO Secretariat:

The IHO Secretariat thanks Indonesia for their comments.

MALAYSIA (Vote = YES)

Malaysia agrees with the proposed IHO Work Programme 2027-2029 and has no further comments.

Comment by the IHO Secretariat:

The IHO Secretariat thanks Malaysia for their comments.

SAUDI ARABIA (Vote = YES)

We approve the revised IHO Work Program 2027-2029. It effectively aligns with the Strategic Plan 2027-2032 and incorporates Council feedback appropriately. We particularly support the continued focus on S-100 implementation program.

Comment by the IHO Secretariat:

The IHO Secretariat thanks Saudi Arabia for their comments.

VENEZUELA (Vote = YES)

The Bolivarian Republic of Venezuela supports the IHO Work Programme 2027-2029 and welcomes its alignment with the IHO Strategic Plan 2027-2032. Venezuela particularly supports the continued implementation of the S-100 framework, including S-101, S-102, S-124 and the establishment of the IHO Infrastructure Centre. The Hydrographic Service of Venezuela reiterates its commitment to actively contribute to these initiatives through the MACHC and relevant IHO bodies.

Comment by the IHO Secretariat:

The IHO Secretariat thanks Venezuela for their comments.

RUSSIAN FEDERATION (Vote = NO)

Please be informed that the Russian Federation is against the approval of the Programme in the existing revised version, and one of the concerns is Technical Visits (WP-G3-05). The concern is that it can be a way of using the IHO financing by one country at the expense of other countries with included political background. As an example can serve MBSHC CL 08/2026 regarding "fulfillment by Ukraine of its coastal state obligations.. amidst the ongoing aggression of the Russian Federation". This CL mentions turning to CDSC, IRCC and IHO Secretariat to ask for funding. Besides, it mentions Decision 22 of IHO Assembly 4 on PRO 3.5, which also includes a phrase using "aggression". RF insists that the abovementioned Assembly Decision 22 and respectively the following MBSHC CL 08/2026 are not in line with the core IHO document - the Convention, and that actions involving politics should not be carried out and must be stopped as soon as there's any attempt to push such actions into the IHO documents and plans.

Comment by the IHO Secretariat:

The IHO Secretariat thanks the Russian Federation for their comments which are duly noted.
