## Recommended Appropriate Portfolio of Paper Charts

For vessels not using a type approved ECDIS with ENC's.

For vessels using paper charts as back-up to a single ECDIS using ENC, or the ECDIS in RCDS mode.

The International Hydrographic Organization has requested information concerning an official Member State list of Appropriate Portfolio of up-to-date paper Charts (APC), as these details are contained in a database maintained by the IHO.

Territorial waters of Iceland are almost fully covered by ENC's.

The APC for back-up purposes are listed in annex 1. Prior to each voyage it will be the responsibility of the Master to decide adequate and appropriate portfolio of up-to-date paper charts which are relevant to the safe navigation of the ship, according to STCW AVIII/ 2 part 1, reg. 5.

Relevant ENCs in appropriate navigational purpose (General, Approach and Harbor corresponding the scale) shall be used when navigating with ECDIS. The current status of available ENCs can be seen on the IC-ENC <http://www.ic-enc.org> or on the IHO ENC Catalogue <http://www.iho.int/>

A list of the recommended Appropriate Portfolio of Paper Charts, for all the main harbors in Iceland, is in Annex 1.

## Backup Paper Charts to a single ECDIS using ENCs

ENC cell	Chart No	Name of Chart	Scale
IS100015	15	Norður-Atlantshaf – Ísland.	1 : 3 500 000
IS200021	21	Ísland (INT 1010)	1 : 1 000 000
IS300031	31	Dyrhólaey - Snæfellsnes (INT 1103)	1 : 300 000
